Coverage of major journals

S. Dunaeva, NDS

At the previous meeting one of the Conclusions (C16) was:

Coverage of major journals by data centre:

PR/C	NNDC
NSE	NNDC
NP/A	NDS
YF and EPJ	CAJAD
YK	CJD
ANE	NEA
NST	NEA
NSTS	NEA
RCA	NEA
CNP	CNDC
NIM/A and B	ATOMKI
ARI	ATOMKI
PL/B	NDS
PRL	NNDC

Each responsible centre will rapidly assess the contents of an issue of the above journals, and communicate rapidly with relevant compilation centres and NDS to point out their need to compile asap. The NDS coordinator will oversee implementation and report on a quarterly basis to all responsible centres collectively.

In spite of a reminder sent by NDS, during this year only CAJAD and ATOMKI sent lists of the references relevant to EXFOR. However, both lists did not contain sufficient information to fulfil the purpose:

1. not in time;

2. only references, without Laboratories, reaction code, etc.

The lists must be such that it is clear which centre must compile it. Therefore, we propose the following form for the Coverage control system:

1. Journal name, volume, Issue, Page, year, Laboratory. Or it can be NSR code and laboratory, data type (n/CP/Ph), importance of compilation (A(obligatory)/B (voluntary) /C(separate transmission, like area J)).

2. NDS should receive these lists within one month after issue of publication.
