

Journal scanning responsibility

(N. Otsuka, 2023-04-14, Memo CP-D/1078, A5)

Journal scanning is important to ensure completeness of EXFOR for newly published data. Following Action 5 from the NRDC 2022 meeting

Propose a revised NRDC Protocol Appendix B “Scanning responsibility” for elimination of journals assigned to a centre but also scanned by NDS (c.f. WP2021-05).

I summarized below my proposal on revision considering the actual situation of scanning work being done by centres. (I appreciate their contribution very much! Especially NNDC and CNDC provide reports to NDS on weekly and monthly basis, respectively!)

If you want to scan a journal to ensure EXFOR completeness for it and you can send your report to NDS for every issue on regular basis (even if you do not find any EXFORable article), your participation is welcome.

<u>Centre</u>	<u>Responsibility</u>
NNDC	AJ, AJ/L, AJ/S, IMP/E
NEA DB	
NDS	ARI, NP/A, NIM/A, NIM/B, PL/B
CJD	YK
CDFE	
CNDC	ASI, CNPR, CNST, CPH/C, CPL, CST, HFH, NTC
JCPRG	
JAEA	
ATOMKI	
UkrNDC	EEJP, UJP, VAT/I, YFE
CNPD	BAS, PAN
KNDC	
NDPCI
